

Subject: Fwd: The booklet about BAN

----- Пересылаемое сообщение от <[waters_sheila....](#)>:

Dear Valerii

Thank you for sending a PDF of the booklet about BAN's history to celebrate the last 300 years. What an illustrious library it has been and still is! You have been such a worthy successor to the long line of directors and the library has been fortunate to have had you at the helm since the fire in 1988, when you were so new as director, to guide it through the past twenty-seven years. That's a great photograph of you in your opening introduction. You and Peter became such close friends after the fire and our family has been proud that our warm friendship has continued since Peter's death in 2003.

I send my personal congratulations to you for all you have achieved for BAN, and love to you and your family.

Sheila
